Building your Army

Armies

This tournament uses the Kings of War 2025 CoK rules (3rd edition), with a maximum army total of **1995** Points and adhering to the rules of composition as detailed below. Players must choose up to this point limit and no more and this will be used for all the games on the day. In addition, any clarifications from the most recent FAQ and Errata will also be used.

Players may choose from the current Kings of War army lists available in the 3rd edition rulebook and Clash of Kings 2025.

Fan Lists

Fan-lists are considered unofficial and may not be used.

Army Composition

- Within your main force, you cannot select the same unit entry of type War Engine, Hero or Monster more than 2 times.
- See Special Hero Section below.

Miniatures

While Mantic models are encouraged, players are permitted to use any number of non-Mantic miniatures in their armies. There is no minimum requirement for Mantic models.

Models *must* be based on the appropriate base size and shape for their type. Unit-basing is permitted so long as the unit footprint is accurate for the unit size.

Painted models are strongly encouraged, and baseline painting scores will be given for 3 color minimum painting with basing. In the end you may play with an unpainted army but it will affect your results. However unpainted forces will not be eligible for “Best appearance” awards and there is a painting score worth 20 points of your overall tournament score.

If any model is used as a “counts-as” or a proxy for another, this *must* be made clear to your opponent before a game begins.

Scenic basing

Many people like to create mini dioramas or bases with integrated scenery. When multi-basing, you must have at least the Minimum Model Count (MMC) as defined in the FAQ. All units **MUST** conform to the unit footprint listed in the FAQ as well. Heroes, monsters and war engines may be on bigger bases, but should be on the smallest base necessary. If your war engine base is greater than 50mm wide, then the 50mm firing arc **MUST** be marked on the base.

Force Lists

You are required to submit a printed copy of your Force List to the organizers at the start of the tournament. You should also have at least one copy for yourself and another spare for your opponents to reference on request. If you DO NOT have printed copies of your lists, you WILL be penalized 5 tournament points. Trying to read someone else's list on their tiny phone screen is not easy to do, nor is it easy for the organizer to attempt to read your chicken scratch handwriting.

Your force list must include:

- All of the models in your army.
- Their equipment and the points value of everything in your army.
- Your name on all copies of the roster.

Please do not use acronyms on any copy of your Force List. If any mistakes are found during the tournament that were not picked up on, the results of all the games in which the player has used the illegal list will immediately be changed to maximum loss of Tournament points, in favor of his opponent.

If you submit your full army list to the TO by December 7, 2023 then you will receive 5 bonus TP. Please submit lists in the Mantic Companion to event code: bwAubuFn8v

Terrain

All terrain will be preset on the tables. Terrain is not to be moved – if you must move a piece please make sure it is returned to its original position at the end of your game.

Tournament Rules

The tournament consists of **three** games on Sunday. The first game will be randomly paired, while all other games will use a swiss style pairing – so you should always be playing someone with a similar record to your own. Grudge matches are allowed for the first round, so long as both players agree.

Game Time and Victory Conditions

Note that there are 2 hours allocated for each round. Chess clocks are recommended for this tournament but not absolutely required. If not used the players are required to keep track of overall timing and must complete their game within the allotted total time. If there is a timing discrepancy, please consult the TO. Chess clocks should be set to 55 minutes per player – giving you plenty of time to play the game and turn in your paperwork.

When time expires for the round play will end whether chess clocks are used or not. Scenarios will NOT be announced beforehand.

Game Sequence

The scenarios for each game are set on the score sheets at the end of this document.

- Meet your opponent at the assigned table and discuss the terrain and how you will treat it during the game.
- Place any objective markers according to the scenario, and finally roll-off for table side. Players should discuss before the game how they will deal with cocked dice and in what circumstances they should be re-rolled.
- Sit on your own side of the table and place your army on your side of the table, so that the opponent can see your models and your force list and ask any questions.
- Both players chess clocks should be set to **55** minutes if being used.
- Roll-off to decide who is going to which player is going to choose table sides (and deploy first).

- Roll-off to decide who is going to start making Vanguard moves.
- Roll-off to decide who is going to take the first turn. Once the winner of the roll off decides who will start to play, that player's clock IS STARTED. Players alternate taking turns using the clock.
- We will be using the optional 7th turn – so manage your time accordingly. Turn Seven will be played off the clock but must still be completed within the overall round time.

Rounds

The match-ups of the first round (Game 1) will be random (with the exception of grudge matches). In the following rounds (Game 2 onwards) players will be paired using a swiss style based on Tournament Points (TP), as explained below. Once players have completed their game in a given round they should jointly complete the result sheet provided and hand it in to the tournament organizers as soon as possible so that the next rounds can be organized in time.

Tournament Points

Tournament points are broken down into four categories. Battle and scenario points are accumulated each round, while appearance is judged and added once, and final sportsmanship points are added after the final game.

Battle Points

Battle points will be assigned as specified on the round score sheet.

Scenario Points

In addition, each scenario will have up to 5 additional scenario points that may be earned. These are in addition to the Battle points earned by winning the game itself.

From the second round, players will be paired using a Swiss system (i.e. matching players on the same amount of BPs, in descending order).

In case of more than two players on the same number of BPs, players will be matched in order of descending 'Attrition Score'.

By 'Attrition Score', we mean the amount of points of enemy units routed by the player until that point in the Tournament (including in Pillage! games). At all times, the tournament organizer will endeavor to avoid player's re-playing an opponent they have already faced but on occasion, this may become unavoidable and a minor adjustment made.

Appearance Points

Kings of War is a hobby as much as it is a game, so points are also given for appearance. A maximum of 20 tournament points will be awarded for tabletop standard armies (as judged Category 1 of the Appearance Scoring document). In addition, one point will be awarded for each Favorite Army vote (Please note that favorite army is a person's army playing in the tournament – so anyone writing down something like "Orcs is da best!" will be thoroughly mocked (unless of course there is an army names "Orcs is da best!" in the tournament. (and yes, we have seen votes for "orcs" and "dwarfs" before)) Best Appearance will use the full score from the Appearance Scoring sheet (max of 38 points), as well as the tournament points earned from favorite army voting. There is no minimum number of Mantic models required.

Sportsmanship

Players will be asked after all their games to indicate their favorite opponent they played that day, with each player receiving 1 Sportsman ship point for each vote they receive. These points will be added to the tournament score. In addition, the person with the most sportsmanship points will win an award.

Winning the Tournament

Tournament Points are the total of battle points, scenario points, base appearance points and sportsmanship points.

The winner is determined at the end of the last round, according to the following criteria:

- The player with the most TP will be the winner
- In the case of players having the same highest TP, the winner will be the player with the highest 'Attrition Score'.
- If both the TP and Attrition Scores are matched, games where these players have played each other during the course of the tournament will be evaluated and the winner will be the winner of such a match.
- Finally, if the players cannot be split, the tournament ends with a joint victory and the players share the first prize.

Prizes

A player can only win one prize. If they qualify for more than one, then they receive the highest prize.

- Best Overall – highest combined TP, (Battle, Scenario, Appearance and Sportsmanship scores)
- Second and Third Overall
- Best General – highest battle and scenario points
- Best Painted Army – highest appearance score
- Best Sportsman – highest sportsmanship score
- Best Appearance Special Hero

In addition to these, there will be several door prizes. To be eligible you must complete all three rounds and not win a prize during the event.

Finally, being the holiday season there will be a holiday fundraiser. Players may purchase a reroll to be used in each round for cash donated to charity for \$5. Rerolls may only be used once per game, and only allow the reroll of one die. They may only be used to reroll your own dice, no forcing your opponent to reroll. Charity funds will be donated to the American Cancer Society. Let's show everyone what big hearts gamers!

Items you should provide

In addition to your army and copies of your army list, you need to make sure you bring the following:

- All dice, tape-measures, rule-books, damage markers, pencils and other gaming accessories you will need. Make it clear to your opponents how you will be tracking damage.
- It will be a good idea to have your units mounted on unit bases or movement trays – if you insist on individually moving all the models in an infantry legion, you'll soon run out of time! Unit footprints must conform to the appropriate size of course.
- Having a display board to carry your army between games is a great way of keeping the tournament moving smoothly and in a timely fashion, and is included in your painting scores.

Rules Questions and Player Conduct

As noted, all rules will be taken from the Kings of War (3rd edition) rule books. In addition, any official FAQ rulings and errata from Mantic Games (published on their website or official forums) will also be used.

Please note that there is absolutely nothing wrong with asking an opponent if they can show you the appropriate rule or set of characteristics so that you can check for yourself that everything is being done correctly. All we require is that you ask nicely and politely, and that you do your best to sort out any problems yourselves. If in doubt, the organizers are available to resolve your problem. Please also respect the time each player has. If a question cannot be resolved quickly, please stop the clock until the answer or a solution is decided upon.

Judges will be on hand if players require a ruling. Your judges for the event will be pointed out at the start of the day. A judge's ruling is final.

Reporting Battle Results

As noted previously, players will be given enough time to play a full game of Kings of War and enough time to hand in results.

Note the attached game reporting sheets. These are labeled with the first game being the last sheet so that as each game is reported, the sheet for the game can be removed and handed in to the organizers. For the third game, there is also a place to note your choice for favorite opponent and favorite army. For favorite army this can be any army in the tournament, not just one which you played.

Gem City Massacre 2023 Special Event Hero Rules

Each army in the event receives a free support hero at no cost to use for all three rounds. They are considered living legends, may not be given items, and require no unit unlock. But in every other way are part of your main force. Please bring a large cavalry or chariot hero to represent them on the battlefield. A special painting award will be given to the best Kringle/ Krampus model. They are mirror images of each other in power and have the same game stats.

Kringle

From the frozen north, a hero of legendary renown and gift giving emerges to help your army. For good and neutral armies, the hero Kringle will join in each battle for the future of the holiday to keep it merry and bright. He will use his gifts and holiday spirit to inspire your troops to defend this most merry of holidays. And when he is injured he will heal his wounds with refreshing milk and cookies. Kringle does not fight with his hands, he leads with his spirit.

Krampus

From the pits of the Abyss, the sinister Krampus will join evil armies to steal the joy of the holiday from the hearts of the good and virtuous. He will terrify your troops to fight harder and destroy the joy in the hearts of the pathetic followers of Kringle. When he is injured he will drink the blood of naughty children from his wineskin and be restored. Krampus does not sully himself with the menial task of killing his enemies. He prefers to let his minions do the dirty work.
